

Setting disabled Download security override for Panopto integration user

- 1) First we need to get Panopto integration user id. The easiest way to get user id is to login with Panopto integration user to Ensemble and invoke following API

<https://scan01.ensemblevideo.com/api/CurrentUser> (replace scan01.ensemblevideo.com DNS with customer DNS)

API will return XML as below where <ID> element contains user id.

```
<EnsembleAPIData xmlns:i="http://www.w3.org/2001/XMLSchema-
instance" xmlns="http://ensemblevideo.com/api">
<Data>
<User>
<ID>efa26604-7ffd-4ec0-b95e-c6f0d97cb924</ID>
<UserName>estarcovic</UserName>
<AuthenticationSourceID>fd2ea5b3-ba4c-424c-b9d4-
b179c1fe46f7</AuthenticationSourceID>
<OrganizationID>1b61b913-c50d-41b9-ba17-558a94c0826f</OrganizationID>
<LibraryID>844d9e60-a204-44fe-ad22-ef305fdad1b9</LibraryID>
<FullName>Eldin Starcevic</FullName>
<FirstName>Eldin</FirstName>
<LastName>Starcevic</LastName>
<Email>eldin@ensemblevideo.com</Email>
<CanUseAnthem>>false</CanUseAnthem>
</User>
</Data>
<Pager i:nil="true"/>
<Settings i:nil="true"/>
</EnsembleAPIData>
```

- 2) With Ensemble user (has to be system administrator) navigate to Administration -> System -> Settings and find setting "Panopto: Integration Users". Edit setting value and add user id of Panopto integration user to comma separated list (see below screenshot). Default value is "na" and it is supposed to be overwritten if this setting is used.

The screenshot shows the Ensemble Video Administration interface. At the top, there are three dropdown menus: 'My Ensemble Video', 'Ensemble Video Org', and 'System'. Below these is a 'Settings' section with a 'Help' button and a 'Portal' button. The 'Panopto: Integration Users' setting is highlighted, with a text input field containing the value 'efa26604-7ffd-4ec0-b95e-c6f0d97cb924,b37b388f-9154-4467-8b18-cbd3e7498a86'. Below the input field, there is a description: 'Comma separated list of integration user ids that bypass download security'. At the bottom of the setting card, there are two buttons: 'Update' (green) and 'Cancel' (grey).
